

Arizona Report of Public Agency Performance on Dropout Rates for Students with Disabilities

Indicator 2: Dropout Rate

Percent of youth with IEPs dropping out of high school.

Measurement

The dropout rate describes the proportion of students with disabilities who drop out in a single year. The definition of a dropout is in accordance with the National Center for Education Statistics' (NCES) Common Core of Data. The definition is based on a "snapshot" count of students at the beginning of the school year. A dropout is a student in grades 9 – 12 who was enrolled at any time during the previous school year who is not enrolled at the beginning of the current school year and who has not completed school. Students who have transferred to another school, moved to another country, died, or who are out of school due to illness are not considered dropouts.

Data

The data are from school year 2007–2008. Dropout rates are calculated for grades 9 through 12.

A public education agency (PEA) listed with an asterisk (*) means it had fewer than 10 students with IEPs in grades 9 – 12. In these instances, the data are not reported to ensure confidentiality.

State Target: ≤ 5.3% of students with disabilities dropping out of high school

State Results: 7.5% of students with disabilities dropped out of high school
